Customer Satisfaction & Feedback

We strive for 100% Customer Satisfaction. Your feedback is very important to us & we take each comment seriously. Many of our improvements have been implemented due to recommendations from customers. After each sales or service transaction, please take a moment to complete a Customer Satisfaction survey found in your product shipment paperwork.

Please contact us any time we fail to meet your expectations!

Pricing Notes

We try to ensure that prices are up to date as of printing date but it isn't always possible. For up-to-date pricing, contact us or visit our web site. All prices are in U.S. dollars (USD); International Pricing can be determined by adding 10% to the item's listed price.

Doing Business with BC Group

We make it easy!
Here are the ways to order products & services from us:

- **Buy On-Line:** Safe, secure internet shopping at www.bcgroupintl.com
- **Credit Card:** MasterCard, Visa, American Express & Discover
- **IMPAC Card:** U.S. Government Purchasing Card
- **C.O.D.:** Cash on Delivery (Money order or Cashier's Check only)
- **C.I.A.:** Cash/Payment in Advance
- **Net 30 Day Terms:** Please contact one of our sales team members if you're interested in this program
- **Wire Transfer:** Electronic Payment ($30 USD additional bank charge added to total amount. Orders exceeding $1,000 USD may waive this additional fee.)
- **Blanket Purchase Order:** A BPO for a year or more saves time & administrative costs for your organization
- **Lease-to-Own:** Purchase capital equipment without the up-front cash outlay while enjoying tax benefits & off-balance-sheet financing
- **Biomedical Teaching Institution Discount Program:** Contact us for more information concerning this program
- **Major Account Programs:** Special incentives & support for larger customers, covering both product purchases & test equipment service. We can custom-design a program for you, covering everything from "new-hire" test equipment/tool assortments to complete management of your calibration program. If you're a large ISO, a manufacturer or have multiple sites, be sure to inquire.
- **Faxed-in Orders:** Upon completing our faxable order form, located at www.bcgroupintl.com, feel free to fax it to us at 1-314-638-3200 to ensure prompt processing

PLEASE NOTE:
Minimum $25 order amount for all orders placed with BC Group.

BC Biomedical Safety Analyzer Series

The SA-2000 Series is a Microprocessor based Electrical Safety Analyzer Family. All five models provide the same basic functions & each comes with a BC20-20110 Chassis (Black) cable for easier testing & BC Biomedical soft carrying case for extra protection.

- The SA-2005 basic features, adds 5 Patient Lead connectors
- The SA-2010 has all of the SA-2005 features, plus adds 10 Patient Lead connectors
- The SA-2010S has all of the SA-2010 features, plus adds an ECG Patient Simulator

The SA-2000 Family of Safety Analyzers allows the user a great deal of flexibility in testing. Plus any of the basic tests can be run in almost any sequence.

The compact size makes the SA-2000 Family easy to hold & operate. All models operate from 85 to 265V @ 50/60 Hz, with Load Currents up to 20 amps, so there is no need to purchase two different analyzers to cover your testing needs. The SA-2010S is the smallest safety analyzer available with a built-in ECG Patient Simulator.

***For Point-to-Point Testing*, please order the BC20-20111 BC Biomedical External (Red) Cable (see page 5).**

D. Dale 2000 LIM/GFI Tester **$835**
A self-contained line isolation monitor & ground fault tester. No external safety analyzer needed.

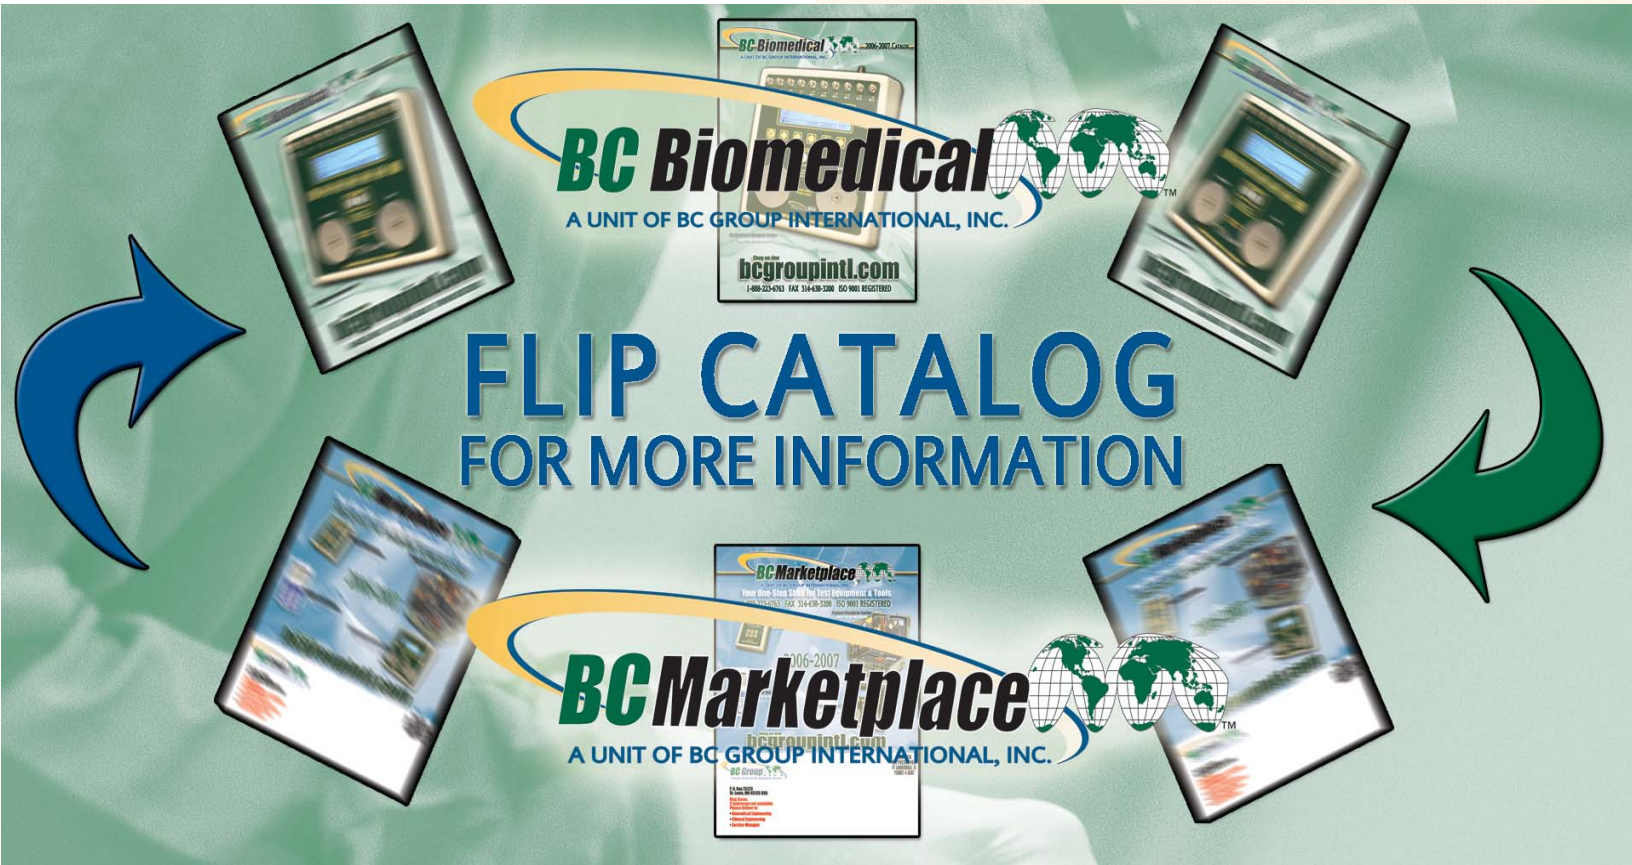
E. BC Biomedical Soft Carrying Case BC20-30107 . . . . . **$59**
Soft-sided heavyweight Cordura® material carrying case that is a perfect fit for Safety Analyzers & multiple cables. This case accompanies each BC Biomedical Safety Analyzer order.

Safety Analyzer Cables

F. BC20-20100 BC Biomedical Kelvin Cable (DNI Type). These cables will fit the following DNI/Fluke Biomedical models: 231, 232, 234, 235, 431, 432, u-Test 2000 & all model medTesters **$55**

G. BC20-20110 BC Biomedical Chassis (black) Cable (BC Biomedical/Dale Type) **$55**

H. BC20-20111 BC Biomedical External (red) Cable (BC Biomedical/Dale Type) **$55**



BC Biomedical Patient Simulator Series

This Multi-Parameter Patient Simulator Series is the most comprehensive, easy to use Family of Simulators on the market. These portable Simulators are intuitive to use since there are NO MORE CODES to enter. The simple scroll control of options make them the best choice for your routine PM of patient monitoring systems & arrhythmia recognition training needs. The SpO_2 simulation option makes this series a truly unique & versatile tool.

- Invasive Blood Pressure/ECG/Respiration/Temp.
- Drop down choice screens list all options for parameters
- Special power up feature allows the user to choose to use default, last or custom settings
- Auto sequences for BPM, static-pressure levels & performance
- 10 universal patient lead connectors (Extra space between posts for the largest connectors)
- Mini DIN connectors compatible with standard BP cables (Optional Mini DIN-M to DIN-F cable adapter BC20-40736 available for older style large DIN cables)
- % Battery life display & low battery indicator
- Powered by two 9V batteries or optional battery eliminator
- Display backlight
- Full remote operation via RS232
- Flash programmable for upgrades
- SpO_2, Cardiac Output & Fetal/Maternal options
- Special programmable training modes
- All BP Waveforms available on all BP Channels
- NEW BC Biomedical PSR-2200 Remote available for the PS-2200 Series (see page 7)

BC Biomedical ECG Simulator Series

Microprocessor based ECG Simulators. Provides ECG Simulation with four waveforms with constant QRS duration, six machine performance testing waveforms.

- **A. PS-2005** 5 Test Lead Model (Size: 5.1"x2.5"x1.0"). **$295**
- **B. PS-2006** 6 Test Lead Model (Size: 5.1"x2.5"x1.0"). **$325**
- **C. PS-2010** 10 Test Lead Model (Size: 6.7"x3.4"x1.3")**$395**

Flip for more info on this series - Pages C-D

D. BC Biomedical Patient Simulator Remote PSR-2200 . . . $595

How would you like to have all of your patient Simulator's outputs available to you on a handheld, easy to use remote control, up to 25-feet away from your Simulator? The PSR-2200 Programmable Patient Simulator Remote Control with Trending Capability brings an unprecedented level of functionality and ease of use to Patient Simulator remote control. There's nothing else on the market that even comes close to the PSR-2200.

Flip for more info on this item - Pages I-J

E. MicroSim Cardiac Output Simulator 1100 . . . . . $615

- Four Blood flow rates (3,5,6 &7 L/min.) • Compact
- Two Blood temps (37°& 38°C) • Dual injectile temps (0°&20°C)

Optional Accessories:

- **1101** Baxter/Edwards Cable. **$105**
- **1103** HP Merlin Cable **$160**
- **1106** Marquette Cable **$125**
- Other cables needed? . . . . . **Call for Pricing**

F. BAPCO PS97S Universal Patient Simulator $3290

Multiparameter Simulator with SpO_2 capability.

G. Universal Banana-to-Snap/ECG Adapters BC20-17024 .$60

- Set of 10 Adapters • Accepts 3 & 4 mm ECG Leads

H. Banana-to-Snap/ECG Adapters BC20-17025 . . . . . $40

- Set of 10 Adapters • Accepts **only** 3 mm ECG Leads

Blood Pressure Cables - Mini DIN Style (for PS Series)

- **BC20-40736** Adapter Cable Large to Mini DIN **$40**
- **BC20-40737** Adapter Cable Mini to Large DIN **$40**
- **I. BC20-41301** TK-1 (6M) BCI International, Criticare, Critikon-Dynamap Plus, Invivo Research, Physio-Control, Protocol Systems, SpaceLabs 1050, 1700, PCMS, Tektronix-Squip.. . . . . **$120**

BC Biomedical Defibrillator Analyzer Series

DA-2006 . . . . . **$1995**

A defibrillator analyzer developed for testing all external defibrillators. The unit may operate as a powerful stand alone device or may be incorporated into an automated PC-based & remotely controlled device. Includes: user manual, internal paddle adapters, protective plates & battery eliminator.

A. DA-2006P **$3395**

A precision instrument for testing defibrillators & external (transcutaneous) pacemakers. The built-in test procedures & extensive resistance loads for pacer testing make the DA-2006P a versatile test instrument & solid value. Includes: user manual, internal paddle adapters, protective plates & battery eliminator.

Optional Accessories:

- **BC20-00427** Plastic Protective Plates (Set Included) . **$18**
- **BC20-00432** Internal Paddle Adapters (Set Included). **$18**
- **BC20-41341** Communication Cable. **$80**
- **BC20-30108** Soft Carrying Case **$89**

Defib & Pace Adapters (for DA-2006 & DA-2006P)

- **BC20-00420** PhysioControl - Defib/Pace. **$118**
- **BC20-00421** Marquette - Defib/Pace. **$198**
- **BC20-00423** Zoll - Defib/Pace **$118**
- **BC20-00424** PhysioControl - Pace Only **$148**
- **BC20-00425** Zoll - Pace Only **$118**
- **BC20-00426** HP/Agilent/Laerdal/AAMI-Defib/Pace . . **$108**

B. PMT-100 External Pacer Tester with Case $1775

- Tests invasive & non-invasive pacers
- Amplitude, rate & pulse width tests
- Demand sensitivity tests
- Sensed refractory period test

C. PMT-2000 External Pacer Tester & Analyzer w/Case. $2450

This is the ultimate pacer tester designed for evaluating & testing of all Atrial/Ventricular Pacemakers including Transthoracic Pacers.

BC Biomedical NIBP-1000 Simulator Series

The NIBP-1000 series is a new Family of high quality, low cost, high function Microprocessor based NIBP Simulators. They were designed to meet the demand for a small, easy to use unit with multiple features to fit your exact needs.

NIBP-1010 (NIBP Only) **$1195**
- Full Range Manometer • Flash Programmable
- Adult, Neonatal & Hypertensive modes
- Full Graphical Display • RS232
- SpO_2 Ready - Compatible w/MSP2100 Module (See Page 11)

Added Features:
- **-P** Peak Pressure Detect **$100**
- **-BP** Peak Detect & Battery (Built-in Rechargeable). . **$425**

NIBP-1010KIT (NIBP only). **$1795**
Includes NIBP1010-BP, Soft Carrying Case & Five Adapters

D. NIBP-1020 (NIBP, ECG Pace & Resp) **$1395**
Has all of the NIBP1010 features plus: • Pace • Respiration • ECG - NSR • ECG - Test waveforms

Added Features:
- **-PA** Peak Pressure Detect & Alarm **$100**
- **-BPA** Peak Detect, Alarm & Battery (Built-in Rechargeable) **$425**

NIBP-1020KIT (NIBP, ECG Pace & Resp). **$1995**
Includes NIBP1020-BPA, Soft Carrying Case & Five Adapters

Optional Accessories:
- **BC20-30111** Soft Carrying Case **$50**
- **BC20-41337** RS232 Communication Cable **$100**
- **E. BC20-40714** DINAMAP/Critikon Adapter **$40**
- **F. BC20-40715** Quick Disconnect Adapter **$40**
- **G. BC20-40716** Luer Adapter. **$40**
- **H. BC20-40717** Marquette Adapter **$40**
- **I. BC20-40608** Bulb Adapter. **$40**

Flip for more info on this series - Pages M-N

J. Clinical Dynamics AccuPulse $4495

AccuPulse's innovative CalTables™ deliver accurate testing of NIBP monitors, typically within 1 to 2 mmHg or better, of the setting. Manufacturer-Certified NIBP Simulation Perform NIBP Testing with confidence. AccuPulse's CalTables™ were developed with, and certified by, NIBP monitor manufacturers. Everyone can now test using the same accurate and certified NIBP Simulator.

K. NIBP Fitting Kit BC20-40602 . . . . . $52

- HP cuff adapter • CPC connector
- Inflation bulb • Silicone tubing & tee
- Quick coupler with 1/8" MNPT

L. NIBP Adapter Kit BC20-40605 . . . . . $49

Connector kit for NIBP testers. Save time & money by buying this kit. Includes 11 connectors, pictured & identified on left.

BC Biomedical IPA-1000 System

The IPA-1000 Infusion Pump Analyzer System is a Microprocessor based system that tests flow rates.

BC10-03103 Includes IPA-1000 plus one 3.5 mL Chamber & one Interconnect cable **$1440**

BC10-03104 Includes IPA-1000 plus one 35 mL Chamber & one Interconnect cable. **$1440**

BC10-03105 Includes IPA-1000 plus two 3.5 mL Chambers & two Interconnect cables **$1785**

BC10-03106 Includes IPA-1000 plus two 35 mL Chambers & two Interconnect cables **$1785**

A. BC10-03107 Includes IPA-1000 plus one 3.5 mL Chamber, one 35 mL Chamber & two Interconnect cables . . . **$1785**

Individual Components:

- **IPA-1000** Infusion Pump Analyzer Display. **$1095**
- **MC3.5-1000** 3.5 mL Chamber **$395**
- **MC35-1000** 35 mL Chamber **$395**

Optional Accessories:

- **BC20-30109** Soft Carrying Case **$104**
- **BC20-40607** IPA-1000 Interconnect Cable **$20**
- **BC20-21100** Battery Eliminator - 120V (U.S.) **$38**
- **BC20-21101** Battery Eliminator - 220V (European). . . **$38**

B. Dale 4100 . . . . . $4195

The Dale 4100 Infusion Pump Analyzer is a single channel system that tests flow, volume & occlusion pressure.

- Simple setup & operation
- RS232/Printer port

C. Infusion Pump Testing Kit BC20-40606-B $249

This test kit contains the necessary components to manually perform the most basic Infusion Pump testing. Includes:

- 500 mL graduated cylinder
- 60 PSI pressure meter for occlusion testing
- Digital stopwatch/timer

BC Biomedical FingerSim™

Provides SpO_2 outputs of 80, 90 & 97%. Simply push on the FingerSim™ to generate a "pulse" or include a calibrated pulse rate by adding the SPO-2000 or the MSP-2100.

D. Starter Kit (includes: 3 FingerSims™: 80, 90 & 97%, FingerSim™ Holder, Carrying Case & User Manual) **$295**

E. Replacement Set (80, 90 & 97% FingerSims™ only) **$245**

Flip for more info on this product - Pages S-T

F. BC Biomedical SPO-2000 Pulse Oximetry Simulator . $699

- 30, 60, 90, 120, 150, & 180 BPM Pulse Rates
- Accepts BC Biomedical FingerSim™ to provide SpO_2 outputs of 80, 90 & 97%
- External wall transformer • Compact & cost-effective
- Maintenance-free

Optional Accessories:

- **BC20-40110** Hard Carrying Case for SPO-2000, FingerSims™ & Accessories. **$75**

Flip for more info on this product - Pages S-T

G. BC Biomedical MSP-2100 Pulse Oximeter Module

- Accepts BC Biomedical FingerSim™ to provide SpO_2 output at 80, 90 & 97%
- Pulse synchronized with PS-2100, PS-2200 & NIBP-1000 products via Aux port
- Powered from Aux port

MSP-2100E 220V (European Version). **$395**
MSP-2100U 110V (U.S. Version) **$395**

Flip for more info on this product - Pages S-T

H. Clinical Dynamics SmartSat Pulse Oximetry Analyzer . $3895

Tests the pulse oximeter & the probe separately. Direct electrical simulation. Unmatched accuracy & reliability.

Optional Accessories:

- **BC20-40720** Soft Carrying Case **$125**

I. Nellcor SRC-MAX Pocket Tester Series

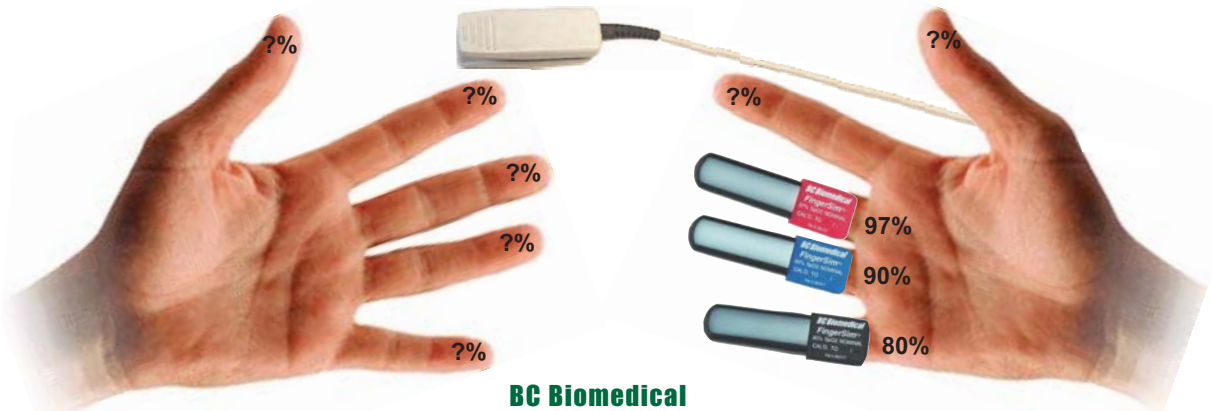
The SRC-MAX is intended for qualified technicians to functionally test Nellcor OXIMAX technology-based pulse oximeters & OEM OXIMAX technology-based monitors.

SRC-MAX (Basic Model) **$569**
SRC-MAX-C (Basic Model with C-Lock cable) **$615**
SRC-MAX-T (Basic Model with 3-Lead ECG Cable). . . . **$615**
SRC-MAX-CT (Basic Model with C-Lock & 3-Lead ECG Cables) **$661**

J. Nellcor SRC-2 Pocket Tester **$544**

Quickly & conveniently tests most of the Nellcor oximeters.

Wouldn't it be nice to have calibrated fingers?



BC Biomedical FingerSim™

A. BC Biomedical USP-30 Ultrasound Wattmeter . . . **$1015**
Simple yet accurate. Uses a unique "balance beam" apparatus. Turn dial to balance indicator, take a dial reading & multiply by the calibration factor on the USP-30 to calculate Watts.
- Comes with a removable carrying lid
- 1 & 3 mHz Response • Built-in transducer holder

Flip for more info on this product - Pages Y-Z

B. BC Biomedical USP-100A Digital Ultrasound Wattmeter . . **$1885**
A compact, digital & affordable way to test both 1 & 3 mHz therapy ultrasounds. Great size for field service.
- 0.1 to 30.0 Watt range, ± 5% accuracy
- 1 to 10 mHz Frequency response
- 3" Max transducer diameter • Built-in transducer holder
- Degassed Water Testing medium
- Eight AA Batteries or 120V power
- Size / Weight: 8"x8"x8.75" / 7 lbs • RS232 Port

Flip for more info on this product - Pages Y-Z

C. UMA UMR-3D Digital Ultrasound Wattmeter **$2890**
From UMA - The people who developed the original soft membrane/water-coupled ultrasound wattmeter. Housed in a rugged metal case.
- 1 & 3 mHz Response • Built-in transducer holder
- Sealed water well • ± 3% Accuracy • Digital readout

Optional Accessories:
- **RS232 Port & Software** (captures data on your PC). **$200**

D. Ohmic DT Series
Housed in a rugged metal case, both models come with a removable carrying lid.
- Built-in transducer holder • ± 3% Accuracy
- Frequency range: 1 to 10 mHz • Digital readout
- RS232 Capabilities • Size / Weight: 11"x15"x10"/ 22 lbs

DT-1 . . . . . **$3620**
DT-10 . . . . . **$2695**

E. Extech 160393 Digital Hanging Scale **$80**
Includes hook; measures hanging weight up to 33 lbs

F. Extech 475040 Digital Force Gauge **$345**
Measures push/pull to 176 oz/5000 g

G. Chatillon 130 Push/Pull Scale **$160**
Measures push/pull to 100 lb x 1 lb
- Easy to Use • Japanned finish, plated hook & loop
- Precision Steel Springs individually calibrated with certified weights
- Heavy Duty Construction • Large Avoirdupois Readings
- Accuracy ±1% Graduation • Metric & Pound Equivalents

H. Bacharach 3010 Nitrous Oxide Analyzer 19-7109 . . $2995

This personal N_2O gas monitor provides a cost-effective means of monitoring occupational exposure to anesthesia gas in operating rooms, recovery rooms, surgical centers, dental offices & veterinary offices. A built-in data logger provides traceable readings for record-keeping purposes. An audible alarm circuit activates when the surrounding N_2O level exceeds a preset limit. This product represents a breakthrough in terms of both size & price.

- TWA (Time-Weighted Average) & twa (Elapsed Time Average) Capabilities
- Built-in data logging—800 readings; Software available for data download
- Three Year Sensor Warranty • Rechargeable NiMH batteries
- Internal sampling pump
- Compact & lightweight: 5.5”x2.6”x0.8”; 7 oz
- N_2O Range: 1 to 1000 ppm; 5 ppm resolution

Optional Accessories:

- **BC20-30101** Protective Rubber Boot/Stand **$65**
- **19-3301** 3010 IrDA Interface Software **$290**
- **19-3302** Car Charger **$110**
- **BC20-40703** 0.2 Micron Replacement Filter (ea) **$8**

I. Bacharach ComfortChek 100 & 200

The Comfort Check provides an effective monitoring solution for indoor Air quality analysis.

- Built-in data logging for storing up to 200 readings
- Stored data easily downloaded through host software
- Up to 10 hours of operation on one charge
- Charge-and-run capability for long term monitoring
- Convenient zero function • Long-life sensors
- Ideal for trend analysis

19-8048 ComfortChek 100 measures CO, barometric pressure, temp & humidity **$1450**
19-8049 ComfortChek 200 measures CO_2, barometric pressure, temp, humidity & CO (w/built-in pump) . **$1975**
200 Kit 200 Unit plus Software kit & hard case . . **$2290**

J. Alnor EBT-721-A1 Electronic Balancing Tool $2445

Testing device for the HVAC test & balance professional that features a multipurpose digital manometer, a capture hood, a relative humidity & temperature probe, an Air flowprobe, a pitot probe, static pressure probes or a velocity matrix (optional).

HVAC Thermo-Anemometers

Handheld units. Measure velocity & temp.

K. **Alnor 8570** Measures volume too **$1095**
Alnor 9870D **$560**
Extech 407123-NIST **$444**

Bacharach Environmental Monitoring Equipment

2815 CO_2 Analyzer with pump 0 to 10,000 ppm . **$1675**
2820 CO_2 Analyzer 0 to 60% **$1675**

Environmental Sensors Monitoring Equipment

Z-100 Ethylene Oxide Monitor **$975**
Z-200 Glutaraldehyde Monitor **$975**
L. **Z-300** Formaldehyde Monitor **$1175**

TIF Environmental Monitoring Equipment

8500A Carbon Monoxide Analyzer 1 to 1,999 ppm **$437**

M. TIFVA500A Digital HVAC Analyzer $565

Measures all HVAC inlet/outlet parameters

BC Biomedical DPM-2000 Series

This Microprocessor based series of meters offers not only positive & negative pressure sensing of compatible liquids & gases, but also has models that offer Temperature & RS232.

A. **DPM-2001** (Pressure, Vacuum) **$595**
B. **DPM-2001PLUS** (Capture, RS232) **$695**
C. **DPM-2100** (Adds: Temp, Capture, RS232) **$795**
D. **DPM-2201** (Pressure, Vacuum) **$645**
DPM-2202 (Adds: Capture, RS232) **$745**
DPM-2251 (Differential Pressure, Vacuum) **$645**
DPM-2252 (Adds: Capture, RS232) **$745**

Optional:

- **BC20-21100** Battery Eliminator - 120 V (U.S.) **$38**
- **BC20-21101** Battery Eliminator - 220 V (European) . . **$38**
- **BC20-21102** RS232 Communications Cable **$84**
- **BC20-30106** Soft Carrying Case **$39**
- **-DC** DC Output (DPM-2200 Series Only) **$100**
- **Second Pressure Sensor** (DPM-2200 Series Only) **$150**
- **Temp Option** (DPM-2200 Series Only) **$100**

E. Meriam Smart Manometer 350 & 351 Series

The 350 Series has a ± 0.05% of FS accuracy (ex:350DN0020; ± 0.10% of FS) & 351 Series a ± 0.025% of FS

Model	Range	Type	350 Cost	351 Cost
DN2000	0 to 2000" H_2O	Differential Non-isolated	**$662**	**$820**
DN0200	0 to 0200" H_2O	Differential Non-isolated	**$662**	**$820**
DN0020	0 to 0020" H_2O	Differential Non-isolated	**$767**	**N/A**
GI2000	0 to 2000 PSI	Gauge Isolated	**$806**	**$964**
GI0200	0 to 0200 PSI	Gauge Isolated	**$806**	**$964**
GI0020	0 to 0020 PSI	Gauge Isolated	**$806**	**$964**
AI2000	0 to 2000 mmHg	Absolute Isolated	**$806**	**N/A**

Optional Accessories:

- **A34386** Connector Kit (call for details) **$78**
- **A35372** Soft Carrying Case **$26**
- **A900016-50001** ABS Plastic Carrying Case **$62**
- **Option-K Kit** Includes: Hand pump (pictured on page 15; B34686 pressure pump for DN & GI models; B34700 vacuum pump for AI model) & a plastic carrying case . . **$348**

F. Meriam Digital Absolute Pressure Meter A1500MH . $435

- Reads Barometric Pressure Directly
- Range 0 to 1500 mmHg • Power: 9V Alkaline
- Media Compatibility: Clean, dry, non-corrosive gases only
- Includes: Battery & Calibration Certificate

G. Meriam Merigauge Digital Pressure Meters $464

- Ranges: 10, 50, 100, 500, 1000, 1500, 3000 & 5000 PSI
- Accuracy: ± 0.25% of FS • Connection 1/4" MPNT
- Media Compatibility: gas or liquids

H. Meriam Minigauge Digital Pressure Meters

- Ranges 50 to 10,000 PSI • Accuracy: ± 1% of FS
- Media Compatibility: Gas or Liquids • Connection 1/4" MNPT

3800-GI0100 0 to 100 PSI Gauge **$151**
3800-GI0500 0 to 500 PSI Gauge **$151**
3800-GI1000 0 to 1000 PSI Gauge **$151**
3800-VI0050 0 to 30" Vacuum Gauge **$155**

I. WIKA Pressure Gauges with Calibration

- ± 0.5% to ± 1.5% of FS accuracy typical
- Variety of wetted parts • Rugged, corrosion resistant

Model	Range	Accuracy	Size	Price
232.54/30	0 to 0030" Hg	± 1.5% FS	2.5"	**$112**
232.54/100	0 to 0100 PSI	± 1.5% FS	2.5"	**$109**
232.54/300	0 to 0300 PSI	± 1.5% FS	2.5"	**$109**
232.54/30-4"	0 to 0030" Hg	± 1.0% FS	4.0"	**$154**

P

J. Universal Manometer Adapter Kit BC20-40603 . . . . . **$39**
Everything you need to connect a pressure meter, regardless of application.
- 15 different fittings: CPC, luer, pipe, barb, etc.
- Inflation bulb with valve • Tygon tubing & more

K Meriam Hand Pumps
- **B34686** 145 PSI Pressure Hand Pump (for Meriam Smart Manometer DN & GI Models) **$348**
- **B34700** 650 mmHg Vacuum Hand Pump (for Meriam Smart Manometer AI Models) **$348**

L. Ralston Pneumatic Hand Pump DPOV-0000 . . . . . **$254**
- Ranges 0 to 80 PSI
- Includes: pressure pump, one hose with 1/4" MNPT adapter

M. Amprobe Ultrasonic Leak Detector ULD-300 . . . . . **$269**
The ULD-300 "hears" the ultrasonic noise created by any gas moving through a small orifice. This method of detection enables it to pinpoint leaks of any gas, regardless of type.

TIF Halogen Leak Detectors
Carrying Case included with all models.
TIFXL-1A Single Sensitivity Range. **$136**
TIFRX-1A Dual Sensitivity Range. **$183**
N. TIFXP-1A Seven Sensitivity Settings **$210**
TIF5750A Two Sensitivity Settings plus Scan mode, detachable probe & leak Intensity Indicators **$272**

Ansonics Ultrasonic Son-Tector Leak Detector Packages
A preventative maintenance tool, used to rapidly locate & pin-point leaks & malfunctions in a wide variety of equipment.
112 Package **$885**
O. 123 Package (pictured). **$995**

P. Snoop® Liquid Leak Detector
Specially formulated liquid that adheres to vertical surfaces with better & longer bubbling to indicate leaks.
Pack of Six 2 oz. bottles. **$30**
Pack of Five 8 oz. bottles. **$40**
One Gallon bottle **$75**

We carry the complete Meriam Instrument Product Line. Contact us with your needs!

meriam process technologies

A. Ohmic AMM-15 Dew Point Meter **$985**
Verifies dew point of pressurized medical gases per ANSI & NFPA99. Range of -40° to +80°F. Max temp of +140°F. Max pressure of 175 PSI.

B. Sahara Dew Point Meter with Case **$3510**
Capable of measuring dew points ranging from -148° to +86°F. The probe can be used in environments with temperature swings
between -166° to +158°F. Includes: NIST Traceable Calibration Certificate & Hard Carrying Case.

C. Medical Gas Outlet Fitting Kit BC20-40630 . . . . . **$368**
Contains all of the fittings/adapters needed to test most outlets (Ohmeda®, Diamond, DISS, Puritan-Bennett & Chemtron) for common gases: Air, Oxygen, Nitrous Oxide, Vacuum, Evac & Nitrogen.

Gelman Particulate Filters & Accessories

1119 Poly Holder for 47 mm filters (50 PSI Max) . . . **$80**
D. **1235** Aluminum Holder for 47 mm filters **$375**
7245 Petri dishes, 47 mm filter protection (per 100) **$40**
E. **51147** Forceps for handling filters **$35**
66149 PTFE Filters 47 mm x 0.45 micron (pack). . **$295**
66408 47 mm x 0.45 micron filters (pack) **$110**

Flowmeters

All prices include Calibration Certificate.

GF-8431-2126 Gilmont Industrial 30 to 280 PM Air Flowmeter **$607**

J. Bacharach MGC 100 N_2O Monitor 19-8058 .....**$2225**
Handheld. Quick charge capability. Range of 40 to 100%. Internal Sampling pump. Includes flow restrictor.

Optional Accessories:
- **19-3302** Car Charger **$110**
- **BC20-30100** Protective Rubber Boot/Holster **$65**
- **BC20-30105** Hard Carrying Case.....**$50**
- **BC80-00246** Replacement Flow Restrictor **$25**

K. Bacharach MGC 200 CO_2/CO Monitor 19-8059 .....**$2225**
Measures 0 to 10,000 ppm CO_2 & 0 to 500 ppm CO. Includes Flow Restrictor & Charger. Maintenance Free-Infrared CO_2 Sensor & Electrochemical CO Sensor.

Optional Accessories:
- **19-3302** Car Charger **$110**
- **BC20-30101** Protective Rubber Boot/Holster **$65**
- **BC20-30105** Hard Carrying Case.....**$50**
- **BC80-00246** Replacement Flow Restrictor **$25**

L. Western Industrial N_2 Purging Regulator RFS-7P.....**$286**
- Brass body resists corrosion • Easy-to-read 2" press. gauge
- Self re-seating pressure relief valve protects against over-pressurization
- Size / Weight: 7.5"x4.5"x6.5" / 3 lbs 3 oz

Medical Gas Installation Tools
These two devices allow medical gas installers to comply with NFPA 99 2002 where it requires that the Nitrogen source of the purge gas shall be monitored & the installer shall be audibly alerted when the source content is low.

M. LPWD Low Pressure Warning Device **$326**
Designed to monitor pressurized gas & alarm when pressure drops below a user adjustable pressure range 25 to 110 PSI with a 300 PSI Max pressure rating

N. S3000-1/4 Low N_2 Pressure Gauge.....**$125**
A general purpose 0 to 4000 PSI gauge suitable for use with Nitrogen. This gauge will alarm both visually & audibly when pressures falls below 500 PSI (± 150 PSI). Gauge has a 2" face & 1/4" MNPT connection.

We carry the complete line of Bacharach Gas Monitors & Leak Detectors. Please contact us, if you don't find what you're looking for.

A. TSI Certifier-FA PLUS High Flow Vent Test System $3585

4080 - Includes Controller Module (Model 4088) and High Flow Module (Model 4081) AC adapter bacteria filter, pressure tubing and adapters, operator's manual, National Laboratory traceable Certificate of Calibration & soft-sided carrying case.)

- Color touch screen graphical user interface • Graph mode
- Supports Adult, pediatric, anesthesia, Neo-natal & high frequency ventilators
- Bi-directional and unidirectional gas flow capabilities
- Print & data storage - 1 MB of internal storage & 64 MB optional SD flash card
- Volumes and flow in BTPS, BTPD, Actual, Standard or user defined standard
- Calibrations for Air, Oxygen, Air/Oxygen mixture, nitrogen, Nitrous Oxide (low flow module only), and carbon dioxide
- High pressure port – to 150 PSIG • Rates up to 1500 BPM

Optional Accessories:

- **4082** Low Flow Module **$695**
- **4073** Oxygen Sensor Kit: Adds O_2 measurement capability to Certifier FA Test System.....**$295**
- **1303860** Printer Cable **$25**
- **1208061** Extra Battery Pack/Charger Kit.....**$115**

A

B. TSI Certifier-FA Respiratory Vent Test System

Simply the best way to test ventilators, Oxygen concentrators & other respiratory & flow devices. A complete measurement solution for Air, Oxygen & Nitrous Oxide.

4070 High Flow Test System (Includes controller module, high flow module, four AA batteries, filter, pressure tubing & adapters, flow module mounting bracket, screwdriver, manual, NIST-traceable Calibration Certificate & soft-sided carrying case).....**$2475**

Handheld

Parameter	Specification
High Flow Air or O_2	0 to 300 SLPM; ± 2% of reading or ± 0.075 SLPM
High Flow Air/O_2 Mix	0 to 300 SLPM; ± 4% of reading or ± 0.075 SLPM
Low Flow Air or O_2	0.01 to 15.00 SLPM; ± 2% of reading or ± 0.010 SLPM
Low Flow N_2O	0.01 to 15.00 SLPM; ± 4% of reading or ± 0.075 SLPM
Volume Air or O_2	0 to 10 L; ± 2% of reading or ± 0.075 SLPM
Volume Air/O_2 Mix	0 to 10 L; ± 4% of reading or ± 0.075 SLPM
High Pressure	N/A ***(See Meriam Smart Manometer (Page 14): 0-72 PSIG @ ± 0.05% FS)***
Low Pressure	-25 to 150 cmH_2O; ± 0.75% of reading or ± 0.20 cmH_2O
Breath Rate	0.5 to 120 BPM (± 5%)
I:Time	0.25 to 60 seconds (± 0.01 sec.) (E:Time Not Displayed)
I:E Ratio	1:100.0 to 100.0:1 (± 5%)
Minute Volume	0 to 99.00 stp L (± 7%)
Barometric Pressure	375 to 1,500 mmHga; ± 8 mmHga
Oxygen	0 to 100%; ± 2% at Calibration Conditions
Portability	Complete Kit Case - 11"x8"x4" / 3 lbs
Power	Four AA - Battery Life 15 to 20 Hours

B

Optional Accessories:

- **350-DN2000** Meriam Smart Manometer Recommended Pressure Meter for Vent Testing (See Page 14).....**$662**
- **4072** Low Flow Module **$695**
- **4073** Oxygen Kit: Adds O_2 measurement capability to Certifier FA Test System.....**$295**

C. Mallinckrodt (NPB) BreathLab PTS-2000 Ventilator Analyzer 4-076185-00 . . . . . $7500

- Accurately measures pressure, flow, volume, Oxygen concentration & barometric pressure & N_2O flow
- Measures Air, O_2, Air/O_2 mixture • User-replaceable O_2 sensor
- Single-multifunction screen; portable, lightweight, rugged design
- 20 selected parameters on 10 user-configurable screens
- Numeric display of two real-time measurements
- Auxiliary menu for O_2 calibration & sensor management
- English & metric units for pressure, flow & volume

Optional Accessories:

- **BreathLab Software** $495
- **4-075359-00** Model 840 Vent Software $695
- **4-076164-00** Hard Carrying Case $457
- **4-076599-00** Model 840 Vent Accessory Kit $414

TSI General Purpose Mass Flowmeters

- Flow rate, volume, temperature, pressure in one instrument
- High accuracy - 2% of reading • Multi-gas, user selectable
- Built-in temperature & pressure sensors for high accuracy without external compensation
- Standard L/minute or Volumetric L/minute
- RS232 & Analog outputs

4040 Mass Flowmeter User selectable Gas calibration (Includes: Air, N_2, O_2, Air/O_2 Mix; Flow range up to 300 L/min & 22 mm ISO tapered O.D. inlet/outlet size) $895

D. 4140 Mass Flowmeter User selectable Gas calibration (Includes: Air, N_2, O_2, N_2O; Flow range up to 20 L/min & 0.25 in O.D. inlet/outlet size). $795

Optional Accessories:

- **E. 4199** Flowmeter Battery Pack Base. $100

BC Biomedical LS-2000 Lung Simulator Series

Airway resistance, lung compliance & leakage widely adjustable.

F. LS-2000A Adult Lung Simulator. $695
LS-2000I Infant Lung Simulator. $695

G. "Manley" Lung Simulator $2855

A long-time industry favorite. Acts as a simulated physiological load for the ventilator being tested.

- Volume range: 0.3 to 1.0 L • Variable airway resistances
- Variable compliances
- Use alone or with an electronic ventilator analyzer.

We service Manley Lung Sims & carry replacement parts!

Test Lungs

10107 Infant $99
H. BC20-40200 Adult $50

I. Mark 8 Respirometer $970

Two Dials. Small dial: 0 to 1 L. Large dial: 0 to 100 L.

Optional Accessories:

- **J. 19-00481** Adapter that connects a respirometer to a ventilator drive gas hose $25
- **BC20-01007** Respirometer Wright Guard $34

K. BC78XX Test Box (Ohmeda®) $249

Test box simplifies testing of Ohmeda® anesthesia ventilators. Includes a 24" connecting cable.

Optional Accessories:

- **BC78XX-CABLE** Replacement 24" cable (also fits Ohmeda® 78XX test box model) $49

Special Tools for Anesthesia

L. 10195K29 Krytox® Oxygen-compatible Lubricant (one tube) $58
M. 1204K32 Dow Corning 111 (Dräger) Stopcock Lubricant/Sealant (two tubes) $40

A. Riken FI-21 Portable Gas Indicator **$3550**
This Anesthetic Gas Indicator measures vaporizer output concentration using a digital display & does not require correction factors. Measures concentration in percentage for Desflurane (Suprane), Sevoflurane, Isoflurane (Forane) & Halothane. The battery operated FI-21 allows the user to select the carrier gas (O_2 or Air) & has an internal pump. Includes: Sampling Tube, Carrying Case & Sampling "T" Piece.

B. Riken 18 Anesthetic Gas Analyzer Series
The standard for anesthesia testing.
Riken 1802D **$2550**
• 0 to 20% • Used for Desflurane
Reconditioned Riken 18-REC **$599**
• 0 to 6% • Comes with Riken 18 Accessory kit

Optional Accessories:
- **BC20-40611** Riken 18 Accessory Kit (Includes: aspirator bulb, mixing T & teflon tubing) **$110**
- Agent Evacuation **Safety Kit** with an F/Air canister . . **$39**

C. Gilmont GF1160 500 mL Flowmeter with fitting kit . . **$276**
• To check monitor pump flow rates
• Correlated flowtable • Calibration Certificate Included

D. Recon. Ohmeda® 5330-REC Anes. Agent Monitor . . **$2995**
Comes with accessories.

Anesthesia Pressure Meter Adapter Kits
Easily connect a pressure meter to popular anesthesia machines.

E. BC20-40600 Ohmeda® High Pressure Kit **$115**
- For testing: Model I & II Secondary Regulator, Excel Secondary Regulator, 7000 Vent Primary Regulator, Modulus CD & Mod II Plus Primary & Secondary & 78XX Primary Regulator

F. BC20-40601 Ohmeda® Low Pressure & Dräger Combo Kit **$145**
- Ohmeda® Tests: Absorber Gauge, 78XX High Pressure Limit Test, 7000 Mechanical Relief Valve Test, Select-a-tec Port Valve Leak Test, Tycos Gauge & Pressure Monitor Test, 2120/2110 NIBP Calibration & 5250/5330 Barometric Pressure Calibration
- Dräger Tests: NIBP Inflation Pressure Test, Manual Sphygmomanometer, Model 2A Breathing Pressure Monitor, Auxiliary Flowmeter, Model 3 & 4 Breathing Pressure Monitor & Leak Test

Optional Accessories:
- **10-02** CPC Coupler 1/8" MNPT **$15**
- **021-140** Inflation Bulb with valve **$15**
- **22-02** CPC Connector 1/8" Barb **$8**

G. Mini-Ox I Oxygen Analyzer **$405**

This portable unit comes with battery life indicators, an easy-to-use thumb wheel calibration dial & a push-button ON/OFF switch. Powered by one 9V battery, the MiniOX I Oxygen Analyzer provides up to 1400 hours of use.

- Range - 0 to 100% O_2
- Linearity - ± 2%

Optional Accessories:

- **710462** Carrying Case **$23**
- **PSR-11-917-J** Replacement Sensor **$90**

H. Mini-Ox 3000 Oxygen Monitor **$645**

Features high & low Oxygen concentration alarms, automatic calibration, battery life indicators & alarms, sensor/cable disconnect alarm & an alarm verification indicator. The MiniOX 3000 Oxygen Monitor is perfect for "in line" Oxygen monitoring in such applications as hospital & home ventilators, NICU & anesthesia delivery equipment.

- Range - 0 to 100% O_2
- Linearity - ± 1%

Optional Accessory:

- **PSR-11-917-J** Replacement Sensor **$90**

I. AII-2000A Oxygen Analyzer **$478**

- Range - 0 to 100% O_2
- Accuracy - ± 1% full scale at Constant Temp & Pressure
- Resolution of Display - 0.1% O_2
- Sensor Life - 60 months in Air
- Warranty - Analyzer Two Years, Sensor 18 Months

Optional Accessories:

- **AII-11-60** Replacement Sensor **$110**

J. AII-2000M Oxygen Monitor **$650**

Same features as the AII-2000A Oxygen Analyzer (above), but provides a Low Limit Alarm 15 to 100%

Optional Accessories:

- **AII-11-60** Replacement Sensor **$110**

Replacement Anesthesia O_2 Sensors

(See online guide for more information.)

- K. **PSR-11-915** **$140**
- **PSR-11-915-1** **$250**
- **PSR-11-915-2** **$160**
- L. **PSR-11-915-3** **$160**
- **PSR-11-915-4** **$120**

Replacement Respiratory O_2 Sensors

(See online guide for more information.)

- M. **PSR-11-33** **$80**
- **PSR-11-33-2** **$80**
- N. **PSR-11-55** **$100**
- **PSR-11-77** **$90**
- O. **PSR-11-917-J** **$90**
- **PSR-11-917-M** **$100**

We carry O_2 Sensors for all Major Oxygen Analyzer Manufacturers, including the following:

Draëger
Ohmeda®
Hudson
Puritan Bennett
Teledyne

Tachometers

A. **Ametek 1726** Combo Photo/Contact Tachometer with Calibration Certificate **$322**

B. **Extech 461893** Photo Tachometer with Calibration Certificate **$199**

Extech 461895 Combo Photo/Contact Tachometer with Calibration Certificate **$229**

C. **TIF780** Infrared Tachometer **$246**

Optional Accessories:
- **BC20-40705** Phototach Reflective Strip Material (2 ft)....**$5**
- **Extech 461830** "Strobotach" Strobe Light **$229**

D. BC Biomedical EndoProjector™ BC10-12502 . . . . . $199

Fits most popular rigid endoscopy fiber light cables. 0.75" diam. x 1.375" long.

E. Extech 365528 Digital Big-Digit Stopwatch $29

Useful for IV pump testing & more. Comes with clock function & alarm modes.

Extech 407355 Noise Dosimeter $599

Measure total sound exposure over an eight hour period. % dose, dB & more.

Optional Accessories:
- **NIST Traceable Calibration Certificate** **$115**

Extech 407740 Sound Level Meter $219

Digital, handheld. Response: 500 to 10 kHz; 0.1 dB resolution; ± 1.5 dB @ 1 kHz.

Optional Accessories:
- **NIST Traceable Calibration Certificate** **$125**

Extech 407766 Sound Level Calibrator $399

94 dB & 114 dB Levels @ 1 kHz.

Optional Accessories:
- **NIST Traceable Calibration Certificate** **$115**

F. Extech 401025 Visible Light Meter $119

0 to 5000 Fc & 0 to 50,000 Lux, digital, handheld, ± 5% Accuracy.

Optional Accessories:
- **NIST Traceable Calibration Certificate** **$75**

G. Extech EA30 EasyView Light Meter $159

- Widest range to 40,000 Fc/ 400,000 Lux is ideal for outdoor applications
- Utilizes precision silicon photodiode sensor
- Complete with a built-in stand, remote sensor with a protective cover, protective rubber holster, a five foot coiled cable for easy storage & six AAA batteries

H. Ohaus Analytical Balance/Scales . . . Call for Pricing!

Ohaus makes a wide variety of digital balances (scales) ranging from portable to lab quality. Options & features available include: draft guards, carrying cases, RS232 output & much more.

We carry <u>all</u> Ohaus Products. Contact us with your needs!

A **Certificate of Accuracy** (**COA**) is proof that the nominal values represented by the mass in question have been designed & manufactured to within exacting specifications.

With **National Institute of Standards & Technology** (**NIST**) Certification the individual weight or weight set is automatically assigned a serial number.

I. BC Biomedical ESU-2000A ESU Analyzer with Kit . . $1499

- 6 Selectable Loads from 50 to 500 ohms
- Return Contact Monitor Test with 1 ohm steps.
- Power, Current & RF Leakage Measurement
- No Batteries/Power Cords • Easy-to-read color-coded meter

Optional Accessories:

- **J. BC20-00120** Replacement Accessory Kit **$40**
- **BC20-40100** Soft Carrying Case **$75**
- **FWH-½ .5AMP** Replacement Fuse **$12**

Flip for more info on this series - Pages W-X

K. Metron QA-ES Digital ESU Analyzer $4495

- Select Watts, Current & Test Load with a touch of a button
- Easy-to-use test instrument • Crest factor measurement
- Internal user selectable test loads from 10 to 5200 ohms (No expansion load module needed)
- Automatic power distribution curve measurement
- Current accuracy: ± 2% reading
- Bandwidth of 10 mHz (-3 dB) • RF leak measurements
- Comes with User Manual & Calibration

L. Ophir Smart Display Laser Meters & Heads . . . . . **Call for Specific Pricing & Availability!**

Any of the more than 70 Ophir smart heads are calibrated & configured to measure laser power & energy with that head.

Rice Lake Precision Weights & Weight Sets

Precision Laboratory Stainless Steel Weight Sets for testing analytical balances & digital scales.

A. Will'tek 9101 Handheld Spectrum Analyzer $7547

Compact but a full-function instrument with a bandwidth from 100 kHz to 4 gHz. It is the ideal box for applications where RF must be measured in the field. This is a product that is very clear & easy-to-learn for all.

- Lightweight & high battery power (Extd. Battery Pack Incl'd)
- Wide bandwidth up to 4 gHz
- Fast sweep speeds & Max-hold to catch intermittent faults
- LAN & serial port, with data exchange software (for remote monitoring)
- Large, bright color display with a 1 button, intuitive control panel

Optional Accessories:

- **M241013 Soft Carrying Case**.....$320

Hameg Spectrum Analyzers

B. **HM5014** 0.15 to 1050 mHz (Readout/Marker) with Tracking Generator.....$3476
HM5510 0.15 to 1050 mHz.....$2100

Hameg Oscilloscopes

Known for their crisp, bright CRT displays, innovative features & high quality. Price includes a Three Year Warranty.

HM303 35 mHz analog with component tester $620
C. **HM504** 50 mHz analog with autoset, readout & cursor.....$965
HM507 50 mHz digital storage, autoset, readout & cursor.....$1395
HM1508 150 mHz, digital storage, autoset, readout & cursor.....$2250
HM2005 200 mHz dual timebase, readout & cursor $1867

D. Fluke 123/003 ScopeMeter.....$1199

RS232 compatible & comes with a Three Year Warranty.

- 20 mHz Bandwidth • Two Scope Vertical Channels
- Two DMM Channels

Optional Accessories:

- **BP120** Spare Battery Pack $52
- **C125** Soft Carrying Case $30
- **Calibration Certificate**.....$105

E. Fluke ScopeMeter 190-Series

Fluke 196BM (100 mHz Bandwidth).....$3220
Fluke 196CM (100 mHz Bandwidth).....$3620
Fluke 199BM (200 mHz Bandwidth).....$3521
Fluke 199CM (200 mHz Bandwidth).....$3895

F. Gold Scope Probe Kits

The "Gold Probe" has been designed specifically for use with Tektronix, Hewlett Packard & other high performance oscilloscopes. The Gold-plated tips, sprung hook, ground lead, alligator tip & other critical interconnect points with in the Gold Probe, provide excellent contacts for probing low-level analog signals.

4901-2 Basic 7 piece Kit.....$44
4901-2K Deluxe 17 piece Kit.....$70

If you do not see what you need, please feel free to contact us!

A. Victoreen 4000M+ Testing Device **$4680**
The Victoreen 4000M+ does it all. Simply place the instrument in the X-ray beam, make one exposure & it serially displays kVp Max, kVp Average, kVp Effective, dose & time. The 4000M+ automatically resets for the next exposure.

B. RMI 403 LE-0.5 Multi-Purpose Phantom 802263 . . . **$2788**
Performs the following tests:
- Axial & Lateral Resolution at multiple depths
- Cyst imaging at multiple depths • Depth of penetration
- Image uniformity • Dead Zone
- Vertical & Horizontal Distance Accuracy

Other Phantoms Also Available, Give Us a Call!

C. Digital Dual Range mAs Meter NA 07-487 . . . . . **$515**
A must have for your tool box.
- Dual: 0 to 199.9 & 0 to 1999 mAs
- ± 2% Accuracy • Battery powered & handheld

D. Rad-Check Plus Dosimeter 06-526 . . . . . **$1243**
Rate & Dose - Quick & Easy.
- Built-in Ion Chamber • Dose: 0.001 to 2 R
- Rate: 0.01 to 20 R/Min • Energy response: ± 5%
- Weighs 18 oz & is battery powered

E. TRIAD Kit 10500AMT (Keithley) **$13074**
The TRIAD Kit performs measurements for all modalities: radiography, fluoroscopy, mammography, CT, cine, image intensifiers & dental. Call for complete specs & details. Items from this kit can also be purchased individually, call for prices & specs.
Kit includes:
- **F.** **35035** mA/mAs Meter
- **35050A** Dosimeter Assembly
- **G.** **35080B** Non-Invasive kVp Divider
- **37500D** Kit Carrying Case
- **37581** Test Stand (Including: Ion chamber, stem HVC & filter tray)
- **37594** Programming Kit (Including: Customizable software, two meter RS232 interface cable & adapters)
- **37617** Wide-Range Filter Pack
- **38208** Coax/Triaxial Cable
- **96020C & 96035B** Remote Ion Chambers
